

WALL CAVITY & UNDERFLOOR VENTILATION

A range of through wall, cavity and underfloor ventilation products for many applications to suit design and regulation requirements.

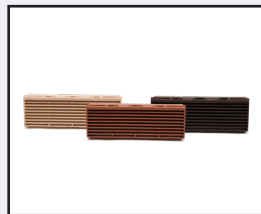

TELESCOPIC UNDERFLOOR VENT
Code: HD 9600M
Airflow: 7,000mm²
 Made from: Polypropylene
 Available in: Black
 When higher level vent aperture than the underfloor void, required 3-5 course adjustment.
 Optional components:
 - HD 9600B: Fitted vermin screen
 - HD 9600CT - Separate cavity tray attachment

UNDERFLOOR VERTICAL EXTENSION SLEEVE
Code: HD 9610/2
 Length: 205mm Height: 175mm
 Width: 50mm
 Made from: Polypropylene
 Made from: Black
 Two course sleeve for HD 9600M.
 Can be used in multiples.

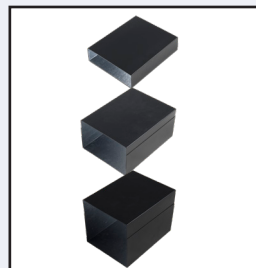

UNDERFLOOR HORIZONTAL EXTENSION SLEEVE
Code: HD 9600T
 Top extension sleeve 140mm long for an outer leaf width up to 170mm
Code: HD 9600M
 Bottom extension sleeve 155mm long for an inner leaf width up to 215mm
 Made from: ABS Available in: Black
 To extend the reach for varying cavity and wall leaf widths

AIRBRICK
Code: HD 9300
Airflow/unit: 7,000mm²
 Depth: 73mm Height: 60mm
 Width: 220mm
 Made from: Polypropylene
 Available in: Black, Brown, Buff, Terracotta
 The bricks can be clipped together for 220 x 150mm or 220 x 225mm combinations and double or triple applications.

SQUARE TO ROUND ADAPTOR
Code: HD 9620
 Made from: Polypropylene
 Available in: Black
 To fit Telescopic Underfloor vent (HD 9600M bottom aperture) and connects to standard 110mm soil or drainage soil.

AIRBRICK VENT SLEEVE
 Products options and additional dimensions:
 HD 9350/1: Single - Height: 61mm
 HD 9350/2: Double - Height: 134mm
 HD 9350/3: Triple - Height: 210mm
 Length: 280mm Width: 217mm
 Made from: Polypropylene
 Available in: Black
 Semi rigid sleeve to ventilate through standard cavity walls.

UNIVERSAL WEEP VENT
Code: HD 9500
Airflow/vent: 260mm²
 Length: 100mm Height: 68mm
 Made from: Polypropylene
 Available in: Black, Brown, Buff, Grey, Terracotta, Translucent, White
 For use in conjunction with cavity trays and lintels, provides for ventilation and moisture escape. Suitable for traditional and timber frame build.

PERP WEEP VENT
Code: HD 9100
 Length: 100mm Height: 68mm
 Made from: Polypropylene
 Available in: Buff, Terracotta, Translucent
 To allow release of moisture above lintels and cavity trays.

PERP WEEP EXTENSION
Code: HD 9200
 Length: 30mm Height: 70mm
 Made from: Polypropylene
 Available in: Translucent
 To clip onto the Perp Weep vent singularly or in multiples for increased outer leaf thickness.

LINTEL STOP END
Code: HD 9800
 Made from: Polypropylene
 Available in: Black
 Adjustable angle stop end complete with integral bonding strip for use with most popular steel lintels to prevent the discharge of water into the cavity.
