

**ZENON**®  
LOW CARBON GRP DAYLIGHT SOLUTIONS

## CPD Seminar; GRP Rooflights for the Metal Building Envelope - A Fabric First Design Approach

This CPD covers the following key requirements and considerations for correct specification of GRP Rooflights in the industrial sector:

- The benefits of Natural Daylight
- Importance of Fabric First thinking
- Essential specification criteria
- GRP Rooflight material, applications, and optimisation
- Diffused and Non-Diffused Light - Comparison in practice
- Rooflights and building performance - CO2 emissions
- Sustainability - Embodied and operational carbon
- Contribution within BREEAM
