

AMBIVERG DRY VERGE SYSTEM

The Ambidextrous system has been manufactured to prevent weather ingress and reliance on mortar at the roof edge. Compatible with most tile profiles and suitable for use on new build or refurbishment.

FEATURES AND BENEFITS

- Suits all commonly available single lap concrete tiles between 260mm and 355mm batten gauges
- Designed to minimise water run-off staining on the verge and gable wall
- Clip-over design for fast installation
- Dry fix products eliminate the mortar installation and maintenance issues
- Secure single nail fixing when used with optional batten end clip. No special fixings required
- Universal eaves starter unit for all applications and one discreet colour
- Starter unit designed to avoid gutter interference and slotted for ease of adjustment
- Starter unit and ridge cap kits include stainless steel screws and wall plugs
- Universal angle and half-round ridge end cap options with integral ridge closures
- High heat distortion resistance compared to PVC
- UV stabilised for long term performance

PRODUCT OPTIONS

♻️ Slate grey dry verges and ridge caps contains up to 100% recycled PPC

PRODUCT CODES AND COLOUR

HD AMBI	Verge unit	Black, Slate Grey, Dark Brown, Antique Red, Terracotta
HD IDV/HR	Half-round ridge end cap	Black, Slate Grey, Dark Brown, Antique Red, Terracotta
HD IDV/AR	Angle ridge end cap	Black, Slate Grey, Dark Brown, Antique Red, Terracotta
HD IDV/ST+	Starter unit	Black only
HD IDV/BC	Batten End Clip	Galvanised

MATERIAL

Polypropylene

COMPATIBILITY

The AmbiVerg system is suitable for all large format interlocking tiles compatible with the IDV system - see overleaf

RELATED PRODUCTS

CON6+ Dry Fix Ridge & Hip System
Includes a ventilated membrane with broad corrugated adhesive strips, patented gaskets, stainless steel straps and fixing screws. Product code: HD CON6

Interlocking Dry Verge For Tiles
Suits all commonly available single lap concrete tiles between 260mm and 355mm batten gauges. Product code: HD IDV

ThinVerg® Interlocking Dry Verge
Suits all large format concrete thin leading edge tile types, and suitable for use on new build or refurbishment. Product code: HD THIN

* When using flat tiles on the left verge and the tile interlock is not removed, the use as a fixing is limited to zone 3 with a ridge height not exceeding 20m, or zone 4 with a ridge height not exceeding 15m and in urban terrain.
