

VENTRIDG[®] SYSTEM

30 YEAR GUARANTEE

A universal ventilating GRP ridge tray system to provide high level roof ventilation in applications where a traditional mortar bedded ridge tile appearance is required.

FEATURES AND BENEFITS

- Provision of high-level roof ventilation
- For mortar bedded mechanically fixed ridge tiles
- Suitable for all slate, plain & flat tile roofs
- Suitable for use with pantiles when used with a separate ventilating ridge roll product.
- Suitable for warm and cold roof applications
- Integrated ventilation and mortar bonding strips
- Manufactured from GRP providing a 30 year guarantee
- Optional fixing kits available

PACK CONTENTS

8 x 1.6m lengths (total coverage of 6m)

PRODUCT CODE

HD VENTRIDG
